BANGALORE, THURSDAY, AUGUST 15, 1918.

PART II.

REVENUE DEPARTMENT.

OFFICE OF THE REVENUE COMMISSIONER IN MYSORE.

Circular No. C. Rev. 108-10, *dated 5th August* 1918.

It is understood that no reliable statistics are available at present as to the efficacy of inoculation against Rinderpest and the number of attacks and deaths, if any, among the inoculated cattle. As it is very desirable that accurate statistics should be maintained on this point, the following instructions are issued for the guidance of all officers of the Revenue and the Civil Veterinary Departments :—

(i) On receipt of information from the Village Patel of the outbreak of cattle disease in his village, the Veterinary Officer should immediately proceed to the village affected and take prompt preventive measures by inoculating the cattle of the village.

(ii) He must leave with the Patel a statement of the cattle inoculated by him showing (1) the name of the owner, (2) the number of his cattle inoculated and (3) the date of inoculation.

(iii) The Patel should submit a report for three successive months from the date of inoculation in the appended form to the nearest Veterinary Inspector, or Assistant Veterinary Inspector direct so as to reach him before the 15th of each month.

(iv) The Veterinary Inspector or Assistant Veterinary Inspector concerned should submit a consolidated statement to the Superintendent, Civil Veterinary Department before the close of the month in which the reports from the Patels are received by him.

2. Deputy Commissioners of Districts are requested to impress on all Patels the need for the collection of accurate information and its punctual despatch to the Veterinary Inspector or Assistant Veterinary Inspector concerned.

MEMO.
